Eleonora

Distinctive and from the heart

We proudly present to you the Eleonora catalogue spring/summer 2025. A collection with variations on existing popular items such as the Rayven chairs, the Josh dining table and the Milo cabinets; combined with innovative designs that challenge you to take a step forward. A range of in-house designs, designed and created by our own designers, makes the collection distinctive and from the heart.

The power of wood

The trend of light and mid-brown wood tones is evolving and we will see more of it in this collection. This popular, warm and timeless material is used not only for cabinets and tables, but also for dining chairs and armchairs.

Form, material and function

Contemporary designs are friendly and never lose sight of the product's function. This combination of simplistic shapes and materials executed in functional designs creates timeless furniture.

Discover, experience and enjoy spring/summer 2025
